Develop Urbancrest's future.

The Urbancrest Community Plan is a guide for the Village's future: how land is used, what development looks like, how people get around, and how the community builds pride and a sense of community. At the last public meeting, you told us your envisioned future. We've assembled draft goals and actions that will help achieve the vision. We need you to tell us what you think.

Watch the plan's presentation on Youtube before attending the meeting using the link above. The meeting can be accessed via video conference with a mobile device or computer using the URL, and meeting ID and password above. It can also be accessed via teleconference using the phone number and meeting ID and password. We look forward to hearing from you!
